

FAQs Regarding
SeeGold Empire's
Inlivegenus Family & Community Space(s)

How many family/community spaces are there and where are these spaces located?

Our Headquarters is highcated in the highlands of the Godtinent of Africa, with a possibility of establishing satellite bases in other places on the Godtinent in the future. *We are currently focusing primarily on the structuring of the Headquarters as the blueprint that each potential satellite base will follow.* The exact highcation of each of these spaces will be kept private for the sake of maintaining purity and only revealed to those who we livearn (discern) are compatible with the integrity and mission of these spaces & the Empire as a whole.

What is the purpose, intention, and aim of these spaces?

We are establishing these bases as safe spaces for displaced persons who desire to undo the conditioning of the modern world. These spaces serve as a home to the children of the Highest I, whereby we can facilitate and live in our sovereignty without disturbance. These cultural spaces are to serve as both transitional/residential spaces for persons who are being initiated

into SeeGold Empire, as well as a space where the Empire offers a cultural inspherience, which includes several healing, artistic and technical service and activities for guests as well as the highcall community.

What kind of activities & services will be shared at these spaces?

The services offered at these spaces are within two categories.

- ★ The primary set of services and activities are geared towards the deprogramming & reprogramming of the residential family members. Residential members of the community, who are potential Empire members, will undergo a series of activities and rituals that serve to undo the cultural programming of the western world, while instilling in them the cultural trajectory, morals and values, and overall essence of SeeGold Empire. These rituals and ceremonial activities will be kept private.
- ★ The secondary set of services geared towards travelling guests will be facilitated through our nature based projects, services and initiatives such as SeeGold Tours and Earth's Haven Bush Camp.

How do persons go about joining the community/family?

To become a *residential initiate of SeeGold Empire*, there is a 3-Stage initiation process. The first stage involves a series of virtual meetings (meetings) via video/audio call, which will allow one to share his/her heart's desire(s), upbringing & worldly experiences, and level of resonance & intentions as it pertains to SeeGold Empire. This will allow the Empire to livearn (discern) whether we will proceed with the merging. The second stage and third stages of initiation are transitional and residential, and involve a number of private ceremonial activities and rituals to be completed amongst the community.

How do persons go about visiting?

To visit the community, one must simply share the intentions of the visit. This will allow the Empire to discern the spirit of the person coming onto our sacred space.

What does funding via sponsors, investors, and donations go towards?

All funding goes towards the expansion of SeeGold Empire's Inlivegenus Family & Community Spaces, which includes the gathering of resources such as solar equipment (generators, panels, chargers, lights, radios, etc), sustainable water catchment,

eco-transportation in the form of bamboo bikes, etc. Funding also goes towards land expansion, which will allow the Empire to occupy more space for seed dispersal of wild, naturally occurring foods and cultural staples as well as the planting of our primary resource Bamboo, which is used for home building, food & water storage, textiles and other forms of cultural arts.

How do persons donate?

Donations can be sent to any of these money transfer accounts:

Cashapp: \$seegoldent

Venmo: venmo.com/seegoldempire

If persons desire their donation(s) of larger amounts to be tax deductible, donations may be sent to our 501(c)(3) parent-organization, *Vivuli (Shades in Brown)*.
